Experience

Kumwell Corporation PLC.

Nonthaburi, Thailand

Software Engineer

May. 2025 - Dec. 2025

Responsibilities

- Designed and developed scalable web applications using Laravel
- Utilize TailwindCSS, CSS3, JavaScript, and Laravel Framework

Thai-German Institute · Internship

Chonburi, Thailand

Information Officer

Mar. 2024 - Jul. 2024

Responsibilities

- Design and develop Assisted in the development and maintenance of information systems
- Utilize Bootstrap5, CSS, JavaScript, and Yii2 Framework

Projects

Room Booking and Asset Management Web Application (Laravel Framework, JavaScript, CSS)

Issue: Double booking and inefficient equipment management.

- Developed a comprehensive booking system using Laravel Framework to eliminate double-booking conflicts
- Deploy web applications to hosts using Ubuntu in WinSCP

TGI Seminar Room Management (Yii 2 Framework, JavaScript, CSS, SQL Server)

Issue: Difficulty in managing seminar room bookings and preventing conflicts.

- Engineered a seminar room reservation platform using Yii2 Framework and SQL Server to resolve scheduling conflicts
- Deploy web applications to hosts using Ubuntu in WinSCP

TGI HrnewEmployee (Yii 2 Framework, JavaScript, CSS, SQL Server)

Issue: The employee recruitment approval process is inefficient and complex.

- Digitized and streamlined the recruitment approval process by developing the HrNewEmployee system
- Deploy web applications to hosts using Ubuntu in WinSCP

Skills

Frontend: HTML5, CSS3, JavaScript, React, TailwindCSS

Backend: PHP (Laravel, Yii 2 Framework)

Database: MYSQL, SQL Server

Tools: Git, Github

Education

Phetchabun Rajabhat University

Phetchabun, Thailand

Bachelor of Computer Science GPA : 3.35

2021 – 2024

Activities

The Asia Undergraduate Conference in Computing (AUCC 2025)

Office of Academic Resources and Information Technology Phetchabun Rajabhat University February 2025
joins the AUCC network and the Faculty of Science, Uttaradit Rajabhat University

This research developed a Laravel and MySQL-based web application for room and equipment management. The system streamlines the booking process, prevents duplicate reservations, and improves overall resource efficiency.
